

We are a team of producers, directors, storyboard artists, animators, composers, and editors who all work together from concept to the final project. We are always looking for new opportunities to create unforgettable stories, and work with talented individuals.

With a growing slate of animated series and features there are plenty of opportunities to create. We are constantly looking for new projects and ways to apply our talents and skills. Whether you are skilled in art design, sculpting, modeling, animating, sound design, directing, or editing we will put your talent and skills to good use.

Unforgettable stories come from our team. Our team is the place where our animators share their skills, collaborate, and explore. At Anitech you can share your skills with the world. You will be free to collaborate with the rest of the team and explore your degree of expertise.

We are always looking for talented individuals to join us. If you feel like you have something to share with us we want to hear from you. We are excited to see what new applicants have to offer us and how we can apply their talents and skills.
